

InfoBuz Technologies — Comprehensive Demo Guide

App: `http://localhost:5173` | **Password (all accounts):** `password123` **Framework:** Hybrid (OKR + KRA-KPI + Competency) | **Cascade:** Bidirectional **Industry:** IT/B2B SaaS | **ARR Journey:** ₹50 Cr → ₹75 Cr → ₹100 Cr → ₹200 Cr (target)

Org Structure & Grade Levels

InfoBuz uses **L1 → L6** grade codes (CEO = L1, frontline executive = L6).

Important: Grade codes are L1 through L6. L1 is the CEO (most senior). The numeric `Level` field in the database is an internal seniority score (L1 = 9, L6 = 3) used for hierarchy sorting — **the UI always displays grade codes (L1, L2...), not the numeric level.**

Grade Code	Label	Hierarchy
L1	CEO / Managing Director	Rahul Mehta — company-wide OKRs
L2	Vice President / HOD	VP Sales, VP Product, VP CX
L3	Regional Head / Director	North/South Sales, Engineering, CX, HR
L4	Area Manager / Lead	Area Managers, Eng Lead, CX Lead
L5	Senior Executive / Engineer	Team leads, Sr Engineers, Sr CX
L6	Executive / Associate	Frontline sales executives (18 people)

Data Coverage — All 41 Employees (FY 2025-26)

Every InfoBuz employee has **OKR Key Results + KRA + KPI + Competencies** in FY 2025-26. No employee is without OKR contributions. Company OKR maps through the hierarchy.

Level	Employees	OKR KR	KRA	KPI	Corr
L1 CEO	Rahul Mehta	6 KR's across 4 Objectives	Revenue Growth	—	Strategic Leadership, Communication
L2 VP Sales	Vikram Joshi	Sales Revenue ₹150 Cr ← CEO ARR	Revenue + New Business	Monthly MRR	Leadership, Strategic Thinking, Communication
L2 VP Product	Karthik Menon	Uptime + Sprint Velocity ← CEO Obj2	Product Quality	Bug Escape Rate	Technical Leadership, Problem Solving
L2 VP CX	Divya Subramaniam	NPS + Retention	Cust Satisfaction	CSAT Score	Customer Communication, Strategic Thinking

		← CEO Obj3			
L3 Sales North	Amit Sharma	North Revenue ₹50 Cr ← VP Sales	Revenue Growth	Monthly MRR	Leadershi Execution
L3 Sales South	Priya Patel	South Revenue ₹90 Cr ← VP Sales	Revenue Growth	Monthly MRR	Leadershi Execution
L3 Engineering	Sneha Krishnan	Uptime + Velocity ← VP Product	Product Quality	Bug Escape Rate	Technical, Collabora Adaptabi
L3 CX	Ganesh Iyer	NPS + Churn ← VP CX	Cust Satisfaction	Ticket Resolution	Customer Commun Collabora
L3 HR	Pooja Mehta	eNPS + Attrition ← CEO Obj4	Team Development	—	Leadershi Commun Adaptabi
L4 Sales (×3)	Sanjay/Deepak/Sunita	Area Revenue ← L3 KR	Revenue Growth	Monthly MRR	Leadershi Execution
L4 Eng	Manish Verma	Uptime + Velocity ← L3 Eng	Product Quality	Bug Escape Rate	Technical, Collabora Ownersh
L4 CX	Ritika Gupta	NPS ← L3 CX	Cust Satisfaction	Ticket Resolution	Customer Commun Adaptabi
L5 Sales (×6)	Rohit/Kavya/Arun/Neha/Ravi/Pooja	Team Revenue ← L4 KR	New Business	Monthly MRR	Sales Exe Leadershi Focus
L5 Eng (×2)	Zubair/Ankita	Velocity ← L4 Eng	Product Quality	Bug Escape Rate	Technical, Collabora Adaptabi
L5 CX	Rishab Pillai	NPS ← L4 CX	Cust Satisfaction	CSAT Score	Customer Commun Collabora
L6 Sales (×18)	All 18 executives	My Revenue KR	New Business	Monthly MRR	Sales Exe Customer Adaptabi

		(proposed, bottom-up)			
--	--	-----------------------	--	--	--

L6 status: All 18 have OKR KR + KPI + KRA + Competency — all in proposed (unlinked) state. V13 blocks cycle from advancing to active until managers link all proposals.

Quick Login Reference

Email	Name	Level	Role	Key Demo Point
rahul.mehta@infobuz.in	Rahul Mehta	L1 CEO	Admin	4 OKR Objectives, full org drilldown
vikram.joshi@infobuz.in	Vikram Joshi	L2 VP Sales	Manager	₹150 Cr KR; cascade to North/South
karthik.menon@infobuz.in	Karthik Menon	L2 VP Product	Manager	Uptime + Velocity OKRs
divya.s@infobuz.in	Divya Subramaniam	L2 VP CX	Manager	NPS + Retention OKRs
amit.sharma@infobuz.in	Amit Sharma	L3 North Director	Manager	₹50 Cr KR; North team
priya.patel@infobuz.in	Priya Patel	L3 South Director	Manager	₹90 Cr KR; South team
sanjay.reddy@infobuz.in	Sanjay Reddy	L4 Area Manager	Manager	₹28 Cr KR; Rohit's manager
rohit.verma@infobuz.in	Rohit Verma	L5 Team Lead	Manager	Gap visible: ₹12 Cr vs ₹0.78 Cr
ankit.joshi@infobuz.in	Ankit Joshi	L6 Executive	Employee	Over-plan ₹0.30 Cr (25K MRR)
karan.singh@infobuz.in	Karan Singh	L6 Executive	Employee	Under-plan ₹0.18 Cr (15K MRR)
arun.kumar@infobuz.in	Arun Kumar	L5 Team Lead	Manager	Absorbs Karan's gap (+5K own)
sneha.krishnan@infobuz.in	Sneha Krishnan	L3 Eng Head	Manager	Product OKR chain
pooja.mehta@infobuz.in	Pooja Mehta	L3 HR Head	Manager	eNPS + Attrition OKRs

Company OKR Cascade Chain (FY 2025-26)

Rahul Mehta (L1 CEO)

- Objective 1: "Scale InfoBuz to ₹200 Cr ARR" [wt: 30%]
 - KR: Annual Recurring Revenue = ₹200 Cr [wt: 20%] ← Vikram (₹150 Cr) → Amit (₹50 Cr) → Sanjay (₹28 Cr) → Rohit (₹12 Cr) → L6

	└─ KR: New Customer Logos = 120	[wt: 10%]
	└─ Objective 2: "Zero-Defect Product, 30+ Features"	[wt: 20%]
	└─ KR: Platform Uptime = 99.9%	[wt: 12%] ← Karthik → Sneha → Manish → Zubair/Ankita
	└─ KR: Sprint Velocity = 40 pts/sprint	[wt: 8%]
	└─ Objective 3: "NPS 85+ and Zero Churn Top 50"	[wt: 20%]
	└─ KR: Customer NPS = 85	[wt: 12%] ← Divya → Ganesh → Ritika → Rishab
	└─ KR: Churn Rate = 3%	[wt: 8%]
	└─ Objective 4: "High-Performance Culture"	[wt: 20%]
	└─ KR: Employee eNPS = 50	[wt: 12%] ← Pooja Mehta (HR)
	└─ KR: Annual Attrition = 10%	[wt: 8%]

Demo Flow

Part A — Top-Down OKR Cascade

Step 1 — CEO sets the company OKR Login: rahul.mehta@infobuz.in

- My Targets → show 4 Objectives (ARR, Product, NPS, Culture) — all **Approved**
- Expand Objective 1: ARR ₹200 Cr (20% wt), New Logos 120 (10% wt)
- KRA: Revenue Growth (10% wt)
- Competencies: Strategic Thinking (40%), Leadership (35%), Communication (25%)
- Team Targets → Org Drilldown → full tree collapsed; expand VP Sales to begin cascade

"The CEO has set the north star across all four company pillars."

Step 2 — VP Sales owns his portion Login: vikram.joshi@infobuz.in

- My Targets → OKR: "Sales Revenue Contribution FY26" = **₹150 Cr** (wt: 40%)
 - Parent: CEO's ARR KR — the link is explicit
- KRA: Revenue Growth + New Business Acquisition
- KPI: Monthly New Business MRR = ₹9,50,000/mo
- Team Targets → Cascade Coverage → see ₹150 Cr broken into North + South

"The VP sees exactly who owns what portion of the CEO commitment."

Step 3 — Director takes the North Region slice Login: amit.sharma@infobuz.in

- My Targets → OKR KR: "North Region Revenue" = **₹50 Cr** (linked to Vikram's ₹150 Cr)
- KPI: Monthly MRR North = ₹2,85,000/mo
- KRA: Revenue Growth
- Team Targets → Sanjay Reddy holds ₹28 Cr of that ₹50 Cr

"Every level sees their own OKR target AND how it breaks down below."

Step 4 — Team Lead sees his assignment and the gap ★ Login: rohit.verma@infobuz.in

- My Targets → OKR KR: "L5.1 Team Revenue Contribution" = **₹12 Cr** (linked to Sanjay's ₹28 Cr)
- Team Targets → Cascade Coverage tab
 - Team proposals total: **₹0.78 Cr** vs target **₹12 Cr** → coverage ~6.5% (red alert)

"The bidirectional gap is visible immediately — Rohit must act before the cycle closes."

Part B — Bottom-Up Proposals (Frontline Self-Proposes)

Step 5 — Over-planning executive proposes above baseline Login: `ankit.joshi@infobuz.in`

- My Targets → **Proposed** targets (bottom-up):
 - OKR KR: "My Annual Sales Revenue Contribution" = ₹0.30 Cr | Proposed, unlinked
 - KRA: "New Business Acquisition" (30%)
 - KPI: "My New Business MRR Target" = ₹25,000/month (vs ₹20,000 baseline — **+25% over-plan**)
 - Competencies: Sales Execution (50%), Customer Focus (30%), Adaptability (20%)
 - Over-plan note: "BSNL Phase-2 ₹8K MRR ready Apr 15; HDFC Insurance pilot converting"

"Ankit committed more than the baseline because his pipeline supports it — BSNL Phase-2 is confirmed."

Step 6 — Under-planning executive explains the shortfall Login: `karan.singh@infobuz.in`

- My Targets → OKR KR ₹0.18 Cr, KPI ₹15,000/month (vs ₹20,000 baseline — **-25% under-plan**)
- Self-note: "Lost Infosys (₹8K MRR) in FY25. Rebuilt to 4 SMEs. Committing to realistic ₹15K; targeting ₹20K by Q2."

"Karan is being transparent: FY25 churn hurt him. The system captures this honest commitment."

Part C — Manager Reconciles Both Flows ★ Bidirectional in Action

Step 7 — Rohit links bottom-up proposals to top-down plan Login: `rohit.verma@infobuz.in`

- Team Targets → Direct Reportees tab → see Ankit, Maya, Vikash with proposals
- Click Ankit's OKR KR → "**Link to My Target**" → select "L5.1 Team Revenue Contribution" (₹12 Cr)
- Status: Proposed → **Linked**
- Repeat for Maya (₹0.24 Cr) and Vikash (₹0.24 Cr)
- After linking: ₹0.78 Cr linked vs ₹12 Cr target → gap is still visible and honest

"The 'Link to My Target' action is the reconciliation moment. The gap is real — Rohit must either raise his own burden or escalate."

Step 8 — Under-planning on L5.3 Arun's team Login: `arun.kumar@infobuz.in`

- My Targets → KPI MRR: own target raised to **₹40,000/month** (from ₹35,000 baseline)
 - Description: "Karan 15K+Preethi 20K+Sujith 20K = 55K. Arun raises own by 5K to cover Karan gap."
- Team Targets → Cascade Coverage → shows ₹95,000 total MRR, but Karan's 15K is flagged below-baseline

"Arun absorbed Karan's 5K shortfall into his own target — this is the bidirectional adjustment in action."

Step 9 — Approve linked targets

- Team Targets → Approve each linked target
 - Status: Proposed → Linked → **Approved**
 - Cascade Coverage updates with approved contributions
-

Part D — CEO Sees the Full Picture

Step 10 — Org drilldown from CEO Login: `rahu1.mehta@infobuz.in`

- Team Targets → **Org Drilldown** tab → start collapsed at VP level

- Expand Vikram (₹150 Cr) → Amit (₹50 Cr) → Sanjay (₹28 Cr) → Rohit (₹12 Cr) → L6 executives
- Each node shows OKR / KRA-KPI / Competency status chips
- CEO verifies cascade reaches frontline: ₹0.78 Cr proposed at L6 under ₹12 Cr assignment

"From the CEO dashboard, every level is visible — nothing is hidden, gaps are surfaced."

Part E — Self Appraisal (Review Phase) NEW

When to show: Switch to **FY 2024-25 Annual** (cycle status: **closed**). Ankit Joshi and Karan Singh both have self-ratings + actuals + check-ins in this cycle. In a live scenario, the cycle status would be **review** to allow editing.

Step 11 — Employee reviews own performance Login: `ankit.joshi@infobuz.in`

- Navigate to **Self Appraisal** (main menu)
- Select cycle: "FY 2024-25 Annual"
- Page shows all approved targets grouped by type: **OKR** → **KRA/KPI** → **Competency**

What the Self Appraisal screen shows:

- **OKR group:** KPI target (MRR 20K) nested under KRA folder; achievement bar shows 110% (green)
 - Actual value: ₹22,000 (pre-filled from last check-in — March 2025: "Year-end: 3 accounts active")
 - Self-rating: **5 / Exceptional** — pre-set from seed data
 - Self-comment: "22K avg — BSNL Phase-1 closed Sep; HDFC pilot converted in Mar"
- **KRA/KPI group:** New Business Acquisition — rated 5/Exceptional
- **Competency group:** Not available in FY24-25 seed (competencies seeded only in FY25-26)
- **Right panel:** Appraisal Progress (2/2 rated = 100%), Estimated Score preview

"Ankit's self-appraisal shows 110% achievement. The system pre-fills his last check-in value so he doesn't re-enter what he already tracked month by month."

Step 12 — Under-performer's self-appraisal Login: `karan.singh@infobuz.in`

- Self Appraisal → FY 2024-25
- KPI MRR: actual ₹15,000 vs planned ₹20,000 → achievement **75%** (red bar)
- Self-rating: **2 / Below Expectation**
- Self-comment: "Lost Infosys account in May (₹8K MRR). Took till Q3 to rebuild pipeline."
- Estimated score preview reflects low rating

"Karan's honest 2-rating vs 75% achievement is in the system. His comment explains the Infosys churn — the manager has full context before entering their rating."

Key Self Appraisal Features:

Feature	Description
Check-in pre-fill	Last monthly check-in value auto-populates actual value field
Achievement bar	Shows % attainment (green ≥100%, amber ≥70%, red <70%)
Per-target save	Each target saved independently — no bulk submit risk
OKR nesting	Key Results shown indented under their Objective

KRA nesting	KPIs shown indented under their KRA folder
Score preview	Live estimated score/band updates as employee rates
Progress tracker	X/Y targets rated with progress bar
Read-only mode	If cycle not in review, fields are read-only (view history)

Part F — Team Appraisal (Manager Rates Reportees) NEW

When to show: Stay on **FY 2024-25 Annual** (closed cycle with manager ratings seeded). Login as Rohit Verma (L5 manager) to see Ankit Joshi's appraisal with prior-cycle context.

Step 13 — Manager opens Team Appraisal Login: `rohit.verma@infobuz.in`

- Navigate to **Team Appraisal** (main menu)
- Select cycle: "FY 2024-25 Annual"
- Left panel: list of all direct reportees with:
 - Name, grade (L6), department badge
 - Self-completion status: "2/2 rated" for Ankit, "2/2 rated" for Maya, Vikash
 - Estimated self-score indicator

Step 14 — Rate Ankit Joshi (high performer)

- Click **Ankit Joshi** → right panel opens (rating workspace)

Sticky header shows:

- Employee info: Ankit Joshi · IB-S13 · L6 Executive
- **Estimated score (your ratings so far):** 5.00 / 5.0 → *Exceptional* (updates live)
- **Employee self-score:** 5.00 / 5.0 → *Exceptional* (pre-existing from seed)
- "Aligned with self" indicator (no gap)
- **Last cycle (FY 2023-24):** 4.8 / Exceeds

Rating workspace (for each target):

- KPI: MRR target 20K → actual 22K → **110% achievement** (green bar)
 - Self-rating: 5 | Self-comment visible
 - Gap alert: None (achievement supports the self-rating)
 - Check-ins accordion: 12 monthly entries (Apr 2024 → Mar 2025) — "BSNL Phase-2 confirmed"
 - Manager rating: **5 / Exceptional** (pre-set from seed)
 - Manager comment: "Ankit is team standout. Closed 2 enterprise accounts. Earmarked for promotion."

"No gap between self-rating (5) and implied rating from 110% achievement. Check-in history gives the manager full context without needing a meeting."

Step 15 — Rate Karan Singh (under-performer) Login: `arun.kumar@infobuz.in` → Team Appraisal → FY 2024-25

Karan's workspace:

- KPI: MRR target 20K → actual 15K → **75% achievement** (red bar)

- **Gap alert (amber):** "Self-rated 2/5 but achievement is 75% (implied $\approx 3.75/5$). Self-rating below implied — employee may have under-rated themselves."
- Self-rating: 2 | Self-comment: "Lost Infosys account May (₹8K). Q3-Q4 recovery in progress."
- Check-ins: "May 2024: Infosys churned to competitor" → trajectory improving
- Manager rating: **2 / Below Expectation** (seed; manager agreed with self-assessment context)
- Manager comment: "Consistent under-delivery Q1-Q2. Q3 shows green shoots. PIP if FY26 starts weak."

"The gap alert flags that the math suggests a higher rating than Karan gave himself — but the manager has checked in context and agreed with 2. The system surfaces this for discussion."

Key Team Appraisal Features:

Feature	Description
Reportee list	All direct reports with self-completion %, estimated score preview
2-panel layout	Left: employee list; right: full rating workspace
Score comparison	Manager score vs employee self-score side-by-side
Prior cycle context	Last cycle score + band shown for each reportee
Gap alert	Flags when self-rating significantly differs from achievement %
Check-in history	Monthly entries visible for numeric targets
OKR/KRA nesting	Same visual hierarchy as Self Appraisal
Live score update	Manager's estimated score recalculates as they rate
Per-target save	Independent saves — no risk of losing all ratings on error
Read-only view	Closed cycles are viewable but not editable

Historical Performance (Closed Cycles)

Cycle	ARR	CEO	VP Sales	L3 North	L3 South	Ankit (L6)	Karan (L6)
FY 2022-23	₹48 Cr	Exceeds (4.1)	Meets (3.1)	—	—	—	—
FY 2023-24	₹74 Cr	Exceptional (5.0)	Exceeds (4.0)	Exceeds (4.8)	Meets (3.0)	—	—
FY 2024-25	₹99 Cr	Exceptional (5.0)	Exceptional (5.0)	Exceptional (5.0)	Exceeds (4.0)	Exceptional (5.0)	Below (2.0)
FY 2025-	Target ₹200	(goal-setting)	(goal-setting)	(goal-setting)	(goal-setting)	(proposed)	(proposed)

26	Cr						
----	----	--	--	--	--	--	--

Key Talking Points

Cascading

1. **Top-down is done** — L1 to L5 approved chain navigable in under 2 minutes
2. **Bottom-up is live** — L6 associates proposed without waiting; appear in manager's Team Targets immediately
3. **Gap tells a story** — ₹0.78 Cr proposed vs ₹12 Cr assigned; system surfaces the honest shortfall
4. **"Link to My Target"** is the bidirectional reconciliation moment — manager connects two flows in one action
5. **Org Drilldown** closes the loop — CEO verifies cascade reaches frontline, not just VPs

Self Appraisal

6. **Check-in pre-fill** — no re-entry: monthly actuals auto-populate the appraisal form
7. **Score preview** — employee sees their estimated band before the manager rates
8. **Honest under-rating** — Karan rated himself 2; system records exactly that, with his reasoning

Team Appraisal

9. **Gap alert** — manager instantly sees where self-rating diverges from achievement math
10. **Context without meetings** — 12 months of check-ins + self-comment tell the full story
11. **Prior cycle anchor** — FY24 performance shown alongside FY25 to identify trends

Ankit Joshi — Complete Target Set (FY 2024-25, reference)

Type	Title	Planned	Actual	Ach%	Self	Manager	Final
KPI	Monthly New Business MRR	₹20,000	₹22,000	110%	5	5	5
KRA	New Business Acquisition	—	—	—	5	5	5

Check-in highlight: September 2024 — "BSNL Phase-1 signed ₹6K MRR!" | March 2025 — "Tata Comm + BSNL Phase-2 live"

Karan Singh — Complete Target Set (FY 2024-25, reference)

Type	Title	Planned	Actual	Ach%	Self	Manager	Final
KPI	Monthly New Business MRR	₹20,000	₹15,000	75%	2	2	2
KRA	New Business Acquisition	—	—	—	2	2	2

Trajectory: May: Infosys churned (60%) → gradual recovery → March 2025: back to ₹20K, but annual avg = ₹15K

Ankit Joshi — FY 2025-26 Bottom-Up Proposal (reference)

Type	Title	Value	Weight	Status
------	-------	-------	--------	--------

OKR Key Result	My Annual Sales Revenue Contribution	₹0.30 Cr	20%	Proposed
KRA	New Business Acquisition	—	30%	Proposed
KPI	My New Business MRR Target	₹25,000/mo	50%	Proposed
Competency	Sales Execution	—	50% of comp	Proposed
Competency	Customer Focus	—	30% of comp	Proposed
Competency	Adaptability & Learning	—	20% of comp	Proposed

Over-plan note: +₹5K vs ₹20K baseline (+25%). BSNL Phase-2 ₹8K MRR contract ready Apr 15.
