 Bidirectional Cascade

 Hybrid Framework

Status: Goal Setting

"The CEO sets a ₹200 Cr ARR target. It cascades down through VP → Director → Area Manager → Team Lead. At the frontline, junior executives don't wait — they propose their own bottom-up targets. The manager reconciles both flows: links proposals to the top-down plan, checks the gap, and approves."

Login Reference

Email	Name	Level / Role	Key Target for Demo
rahul.mehta@infobuz.in	Rahul Mehta	L1 CEO · Admin	OKR Objective: Scale to ₹200 Cr ARR
vikram.joshi@infobuz.in	Vikram Joshi	L2 VP Sales · Manager	KR: Sales Revenue Contribution = ₹150 Cr
amit.sharma@infobuz.in	Amit Sharma	L3 Director (North) · Manager	KR: North Region Revenue = ₹50 Cr
sanjay.reddy@infobuz.in	Sanjay Reddy	L4 Area Manager · Manager	KR: North Area 1 = ₹28 Cr
rohit.verma@infobuz.in	Rohit Verma	L5 Team Lead · Manager	KR: Team Revenue = ₹12 Cr (top-down) + reviews team proposals
ankit.joshi@infobuz.in	Ankit Joshi	L6 Executive · Employee	KR: ₹0.30 Cr (bottom-up, proposed)
maya.sharma@infobuz.in	Maya Sharma	L6 Executive · Employee	KR: ₹0.24 Cr (bottom-up, proposed)
vikash.kumar@infobuz.in	Vikash Kumar	L6 Executive · Employee	KR: ₹0.24 Cr (bottom-up, proposed)

Revenue OKR Cascade Chain

Rahul Mehta (CEO · L1) OKR: "Scale InfoBuz to ₹200 Cr ARR — India's #1 B2B SaaS Platform" KR : Annual Recurring Revenue = ₹200 Cr ✓ **Approved** ↓ **Vikram Joshi (VP Sales · L2)** KR : Sales Revenue Contribution FY26 = ₹150 Cr ✓ **Approved** ↓ **Amit Sharma (Director North · L3)** KR : North Region Revenue = ₹50 Cr ✓ **Approved** ↓ **Sanjay Reddy (Area Manager · L4)** KR : North Area 1 Revenue = ₹28 Cr ✓ **Approved** ↓ **Rohit Verma (Team Lead · L5)** KR : L5.1 Team Revenue Contribution = ₹12 Cr ✓ **Approved** ↓ ⚠ GAP — only ₹0.78 Cr proposed vs ₹12 Cr target (~6.5% coverage) **Ankit Joshi (Executive · L6)** KR: ₹0.30 Cr ⚠ **Proposed / No parent link** **Maya Sharma (Executive · L6)** KR: ₹0.24 Cr ⚠ **Proposed / No parent link** **Vikash Kumar (Executive · L6)** KR: ₹0.24 Cr ⚠ **Proposed / No parent link**

Key Demo Moment: Rohit's team has proposed ₹0.78 Cr combined against his assigned ₹12 Cr. The system surfaces this gap immediately in **Team Targets** → **Cascade Coverage**. Rohit must link proposals, negotiate, or escalate — all visible in one screen.

Part A — Top-Down OKR Cascade (Leadership Sets First)

1 CEO sets the Company OKR

rahul.mehta@infobuz.in

- Go to **My Targets**
- Show Objective: "Scale InfoBuz to ₹200 Cr ARR — India's #1 B2B SaaS Platform"
- Expand Key Results: ARR ₹200 Cr (wt 20%), New Customer Logos 120 (wt 10%) — both **Approved**
- Show all 4 Objectives (ARR · Product · NPS · Culture) — CEO owns all pillars
- Go to **Team Targets** → **Org Drilldown** → tree collapsed; expand VP Sales to show cascade begins

💬 "The CEO has set the north star. Every person below can see exactly what the company needs."

2 VP Sales owns his portion

vikram.joshi@infobuz.in

- Go to **My Targets** → KR: "Sales Revenue Contribution FY26" = **₹150 Cr** (wt 40%) **Approved**
- Parent explicitly shows: CEO's "Annual Recurring Revenue" KR — the link is visible
- Go to **Team Targets** → **Cascade Coverage** → see ₹150 Cr split across North and South directors

💬 "The VP doesn't just see numbers — he sees exactly who owns what portion of his commitment to the CEO."

3 Director takes the North Region slice

amit.sharma@infobuz.in

- **My Targets** → KR: "North Region Revenue Contribution" = ₹50 Cr (linked to Vikram's ₹150 Cr) Approved
- **Team Targets** → Sanjay Reddy holds ₹28 Cr of that ₹50 Cr · remaining ₹22 Cr via South Region path

"Every level sees their own target AND how it breaks into the team below them."

4 Team Lead sees his assignment — and the gap ★

rohit.verma@infobuz.in

- **My Targets** → KR: "L5.1 Team Revenue Contribution" = ₹12 Cr (linked to Sanjay's ₹28 Cr) Approved
- **Team Targets** → **Cascade Coverage tab**:
- Team bottom-up proposals total: ₹0.78 Cr vs his target ₹12 Cr → coverage ~6.5% (red alert)
- 3 team members have proposed but none are linked to Rohit's KR yet

"This is where bidirectional mode shows its power — Rohit sees the gap before the cycle closes. He must act."

Part B — Bottom-Up Proposals (Frontline Employees Self-Propose)

5 Junior executive proposes his own targets

ankit.joshi@infobuz.in

- **My Targets** → show all Proposed bottom-up targets:
- OKR KR: "My Annual Sales Revenue Contribution" = ₹0.30 Cr · no parent link yet
- KRA: "New Business Acquisition"
- KPI: "My New Business MRR Target" = ₹25,000/month
- Competencies: Sales Execution (50%) · Customer Focus (30%) · Adaptability & Learning (20%)
- Note: **"Proposed"** badge — Ankit can still edit; manager has not linked or approved yet

"Ankit didn't wait for instructions. He knew his territory and proposed what he can deliver — without needing his manager to open the cycle for him."

6 Another team member proposes independently

maya.sharma@infobuz.in

- Same structure: OKR KR **₹0.24 Cr** proposed · KPI ₹20,000 MRR · KRA · 3 Competencies
- Status: **Proposed** · no parent link
- Vikash Kumar (vikash.kumar@infobuz.in) has also proposed ₹0.24 Cr independently

"Every junior executive on Rohit's team has proposed targets. The proposals live in the system — the manager now needs to reconcile them with the top-down plan."

Part C — Manager Reconciles Both Flows (Bidirectional in Action ★)

7 Rohit reviews proposals and links them

rohit.verma@infobuz.in

- **Team Targets → Direct Reportees tab** → Ankit, Maya, Vikash listed with their proposals
- Click Ankit's OKR KR → **"Link to My Target"** button
- Select: **"L5.1 Team Revenue Contribution"** (₹12 Cr) as parent target
- Ankit's status: **Proposed** → **Linked**
- Repeat for Maya (₹0.24 Cr) and Vikash (₹0.24 Cr)

"'Link to My Target' is the reconciliation moment — the manager connects the bottom-up proposals to the top-down plan with one action."

8 The gap is still visible — and honest

rohit.verma@infobuz.in

- After linking all three: ₹0.30 + ₹0.24 + ₹0.24 = **₹0.78 Cr linked vs ₹12 Cr target**
- Cascade Coverage still shows ~6.5% — the amber/red coverage indicator remains
- Rohit must either negotiate higher targets with his team, or escalate to Sanjay Reddy that current headcount cannot deliver ₹12 Cr

"The system doesn't hide the gap. It gives Rohit a data-backed conversation to have with his manager before the cycle is locked."

9 Approve the linked targets

rohit.verma@infobuz.in

- Team Targets → click **Approve** on each linked target
- Status flow: **Proposed** → **Linked** → **Approved**
- Targets are now frozen — employees can no longer edit
- Cascade Coverage updates to reflect ₹0.78 Cr approved under Rohit's ₹12 Cr

"Once approved, the frontline targets are locked in. The trail from CEO's ₹200 Cr all the way to Ankit's ₹0.30 Cr is complete and auditable."

Part D — CEO Sees the Full Picture

10 CEO drills down to the frontline

rahu1.mehta@infobuz.in

- **Team Targets** → **Org Drilldown tab** → start collapsed at VP level
- Expand **Vikram Joshi (₹150 Cr)** → **Amit Sharma (₹50 Cr)** → **Sanjay Reddy (₹28 Cr)** → **Rohit Verma (₹12 Cr)** → Ankit / Maya / Vikash
- Each node shows OKR / KRA-KPI / Competency status indicators inline
- Single unified view: CEO to frontline associate without leaving the screen

"The CEO can verify the cascade reaches every frontline associate — not just the VPs. Nothing is hidden. The entire performance architecture is transparent."

Key Talking Points

1. **Top-down is already live** — L1 to L5 chain fully approved; navigate the full chain in under 2 minutes.
2. **Bottom-up is parallel** — L6 associates proposed targets without waiting; visible immediately in the manager's Team Targets view.
3. **The gap tells a real story** — ₹0.78 Cr proposed vs ₹12 Cr assigned; the system surfaces reality, not just green checkboxes.
4. **"Link to My Target" is the unique moment** — manager connects the two flows with one action; this is bidirectional cascading made visible.
5. **Org Drilldown closes the loop** — CEO verifies the cascade reaches the frontline, not just VPs. Full accountability, no blind spots.

Ankit Joshi — Full Target Set (Bottom-Up Reference)

Framework Type	Title	Planned Value	Weight	Status
OKR Key Result	My Annual Sales Revenue Contribution	₹0.30 Cr	20%	Proposed
KRA	New Business Acquisition	—	30%	Proposed
KPI	My New Business MRR Target	₹25,000 / month	50% of KRA	Proposed
Competency	Sales Execution	—	50% of comp	Proposed
Competency	Customer Focus	—	30% of comp	Proposed
Competency	Adaptability & Learning	—	20% of comp	Proposed
